

Welcome to our

# Language Camp & Music, Crafts, Culture

**...on the premises of the Villa Radost  
– the magical place for wisdom-seekers**

**WHO?** Girls and boys **aged 8-16 years** who have fun learning new languages within an appreciative community of fellow students. We take in **max. 15 children.**

**WHEN?** Monday, **21. April, 2025** – Sunday, **27. April, 2025** (week after Easter Sunday)

**WHAT? Languages (English, French, Japanese) & Music, Crafts, Culture**– during this language camp you will fully immerse into your chosen language! We know that „learning by doing“ applies especially for learning languages in a fun and effective way. You will find that you can easily memorize vocab and sentence structure through learning whole phrases while you engage in everyday activities, such as playing games, preparing a fruit salad or taking a trip into nature. Classical lectures will only be held exceptionally, e.g. to explain grammar. In this Language Camp we will take you back to the roots of natural, intuitive learning!

**WHERE? Villa Radost** – the magical place for wisdom – seekers! Expect a picturesque setting with a homely and inspiring atmosphere. It is the perfect place to study, relax, enjoy and discover! The villa overlooks the rolling hills of the „Bohemian Paradise“ in Southern Bohemia, close to the Austrian and German borders. It is conveniently situated between the two historically and culturally significant towns of **Cesky Krumlov (UNESCO world cultural heritage site)** and **Ceske Budejovice (origin of the world famous Budweiser Beer)**. The capital Prague can easily be reached for a day trip!

**TUTORS?** Our tutors have literally been hand-picked to make sure they live up to the high standards of the Villa Radost. They are all native speakers with an extensive career of teaching all levels of their language. In addition, our tutors are mostly polylingual which enables them to help you make connections between languages, their similarities or differences and thus anticipate pitfalls and hurdles. But the most important thing: Our tutors love what they do, thus turning your study experience into a fun and adventurous language discovery camp!

**FREE TIME?** But certainly! It is our goal that this Language Camp is such a fun and unforgettable experience that you will want to come back for the next session! Therefore our focused and concentrated immersion work will be regularly interrupted with games on the extensive premises of the Villa Radost, with excursions to the nearby historical sites or to the shores of the Moldavia River. There will be free time for artistry and crafts, for table tennis and other offers. We will ensure that time will fly and that the Master Class will be over too soon...

**HIGHLIGHT?** This unique Language Camp allows you to combine studying a language and trying out musical instruments and a variety of crafts, such as painting or venecian masks. You may chose from a number of musical instruments (e.g. piano, clarinette, violin) and either take first steps to see if you like your choice, or to improve our skills if you are playing one already. As a highlight we will visit some of the cultural sights in the close vicinity. The historical towns of Cesky Krumlov and Cesky Budejovice are breath-taking, as are some of the castles along the winding Moldavia River.

**Curious?** Visit us at [www.VillaRadost.com](http://www.VillaRadost.com) or on Telegram <https://t.me/VillaRadostCZ>
